What are Recommended Equipment, Toys, & Books for Dogs?

EQUIPMENT

Garmin BarkLimiter 2 Bark Collar

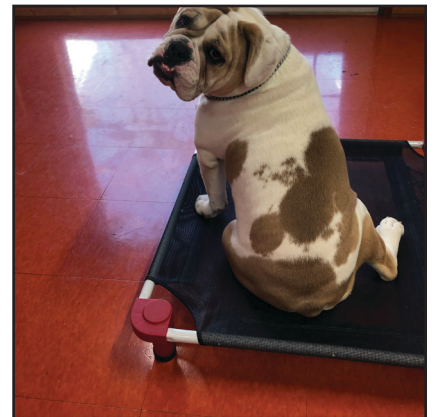

The slim, lightweight BarkLimiter 2 device attaches comfortably to your dog's collar and senses throat vibrations to virtually eliminate false corrections from external noises such as the barking of other dogs nearby. The unit's selectable long or short plastic contact points adapt the device to work on all dog breeds and coat thicknesses. Plus, the rechargeable lithium-ion battery keeps the power coming — and the on-collar corrections working — for weeks at a time. <https://buy.garmin.com>
